### **EDUCATION**

Bachelor of Engineering Science, **Software Engineering** 

09/2022 - 05/2026

The University of Western Ontario, London, ON

- Engineering Student Ambassador 2023- 2024
- Dean's Honour List 2022 2023
- Entrance Scholarship of \$2,500

#### **ENGINEERING EXPERIENCE**

Smartegrators Ltd. - London, ON

# **Project Coordinator**

05/2023 - Present

- Coordinated IoT projects of installing integrated smart devices and non-proprietary open-sourced home automation for a range of clients.
- Provided estimates while overlooking ongoing installations from the hardware and software ends.
- Achieved client satisfaction with fully automated homes and fully secured commercial establishments.

## **Security Systems Installer**

06/2022 - 09/2022

- Conducted full and thorough installation of security systems and testing/quality assessments to verify system functionality.
- Dove deep into the functionality behind the products received from suppliers such as Dahua, and Honeywell to efficiently install the security systems.
- Worked with software such as Resideo's AlarmNet 360 to allow for ease of use from client's end.

#### ACADEMIC PROJECTS

#### **Overhaul Hackathon** – GitHub

Competed in a team to create a user-friendly note taking website using JS, CSS, and HTML.

# **Western Engineering Competition** – <u>GitHub</u>

Led a team to create a full-stack filter and add natural disasters application using JS, HTML, CSS, and CSV.

# Western Engineering ENGSCI 1050 Final Project – GitHub

• Led a team in resolving a frequent issue faced by individuals with physical limitations: Smart devices malfunctioning due to low temperatures when placed on the tray of their wheelchair during cold winter conditions.

## OTHER EXPERIENCE

Staples - London, ON

# **Technology Sales Representative**

06/2022 - 09/2022

- Offered great customer service and guidance to all options Staples provides in the technology section.
- Exceeded expectations and pre-set goals by selling a total of approximately 75 Easy Care Plans and 5 Tech Support Subscriptions on the spot, while also catering to all other customer's needs.
- Built an understanding of how teams work together to meet their goals and learned how I fit as an asset to them.

#### **PROGRAMMING SKILLS**
